

## Good Health Safe Friends Family Being a part of something

### A voice Opportunities for further learning, interests and employment Independence and choice in my home

Our core curriculum of Personal Development, English and Maths gives our children and young people the skills to enable them to continue to learn into adulthood.

This is balanced with our trauma informed principles which enables the school to provide a flexible curriculum that addresses all areas of the individual student's needs.

Our foundation curriculum which offers our children and young people opportunities which will enrich their lives. These opportunities build their cultural capital and enable them to experience awe and wonder at the world around them. These experiences allow them to make meaningful choice into the future.

Our children and young people leave with the understanding of how to be socially, morally, spiritually & culturally responsible & aware. We aim for all our children and young people to leave as Confident Individuals, Successful Learners, Responsible Citizens with a thirst for life.

Because of our close relationships with families and external agencies and because we know our pupils so well, they leave us with a well-documented journey and high-quality transition paperwork that ensures they access their next provision successfully.

Building on the success of  
today for the challenges of  
tomorrow

Transition in, relating and trusting

Engaging

Learning and progressing

Transition

From the moment a pupil enters Mayfield Chestnut Centre, we begin the journey towards achieving these long-term outcomes. Each year prepares them for the next step. Where possible this results in students returning to a mainstream provision or us supporting them into a specialist provision that can meet their needs.

Learning Together to be the best that we can be.
